

## JOHN D. SAWICKI

1909 Hillbrooke Trail, Suite 4, Tallahassee, FL 32311 | 850-688-9101 |  
john@forensicdatacorp.com

### PROFESSIONAL EXPERIENCE

Forensic Data Corp., Tallahassee, Florida

#### **Forensic Computer Scientist**

**2011-Present**

John Sawicki founded Forensic Data Corp in 2011, to provide computer forensics services to organizations in Florida. Sawicki is one of the leading experts on cell tower analysis in the United States. As a forensic computer scientist, Sawicki provides computer forensics, e-discovery and data recovery services to companies, law firms, and government agencies throughout the southeastern United States. With his broad range of experience and knowledge of both legal processes and technology, Sawicki is uniquely qualified to provide skilled computer forensics and e-discovery assistance. As a former law enforcement officer and seasoned attorney with experience representing employers in labor and employment litigation in state and federal court, Sawicki brings a distinctive perspective to cell tower analysis, computer forensics investigations and e-discovery matters. Sawicki's unique abilities allow him to assist with the discovery process from preparation for discovery conferences through trial.

Carson & Adkins, Tallahassee, Florida

#### **Attorney, Labor and Employment Litigation**

**2007-2012  
2015**

As an attorney with a statewide labor and employment firm, Sawicki represented and advised public and private employers in all labor and employment matters, including contract negotiations, employment discrimination litigation, discipline and discharge matters, unfair labor practice charges, union certification and election campaigns, and wage and hour disputes. Sawicki's litigation experience includes all phases of discovery through trial. In addition, Sawicki conducted investigations for employers, including internal affairs investigations for law enforcement agencies and investigations to respond to charges of discrimination with state and federal authorities.

Florida Department of Corrections, Office of the General Counsel

#### **Certified Legal Intern, Labor and Employment Section**

**2007**

Florida Dept. of Business and Professional Regulation, Office of the General Counsel

#### **Law Clerk, Professions Section**

**2006-2007**

Douglas County Sheriff's Office, Roseburg, OR

**1995-2004**

#### REPRESENTATIVE DIGITAL FORENSICS ENGAGEMENTS

As a digital forensics examiner, Sawicki investigates computer evidence related to criminal cases, civil matters, employment matters, and other investigations. He assists attorneys, corporations, law enforcement officials and individuals in collecting, analyzing, documenting, and presenting

electronic evidence, including cases where the data may appear to be deleted, lost or corrupted. Sawicki is able to locate and identify evidence that can be crucial to a case.

#### Commercial Litigation

Computers and cell phones were analyzed to document scheme to steal proprietary trade secret information. Emails, voice mails and text messages detailing the scheme were recovered. In addition, multiple USB devices were identified that were used to remove trade secrets from company computers.

#### Personal Injury

A cell phone used by a nursing home resident was analyzed to locate evidence. The phone log was recovered from the phone and was used to determine whether the resident had attempted calling for help that could have prevented injuries.

#### Criminal Defense

A computer used by a suspect alleged to have downloaded child pornography was examined and the hard drive was analyzed. Electronic evidence was collected, including the computer registry, event logs and metadata. Analysis of the electronic evidence resulted in the development of a timeline to determine whether other individuals could have used the suspect's computer.

#### Employment Law

A computer used by an organization's manager was examined to determine whether he had engaged in potentially unlawful surveillance of organization employees.

#### Social Media Investigation

Social media usage of a plaintiff in a civil case was analyzed to determine whether he had been engaging in activities that conflicted with his claims of injury. Results of analysis were documented for trial.

#### Cell Tower Analysis

Cell tower records were analyzed in a robbery case to determine whether the defendant could have been at the crime scene. Cell records showed defendant's phone was several miles away from the crime scene at the time of the robbery, creating alibi evidence.
